

Networking

Network composes of two switches connected to the main router.

Router is connected to the AtticSwitch which is connected to the LabSwitch.

Switches are managed using [Easy Smart Configuration Utility](#).

AtticSwitch TL-SG108PE 2.0 info

VLAN	VLAN Name	Member Ports	Tagged Ports	Untagged Ports
1	Default	1-8		1-8

Port	Connection
1PoE	Karl1
2PoE	Karl2
3PoE	-
4PoE	Printer
5	-
6	LabRouter
7	-
8	Router

LabRouter Archer C7 v5.0 info

Port	Connection
WAN	AtticSwitch
